EduForm™

EduForm is a sophisticated product for the development & use of integrated online forms linked to any Student Information System (SIS) & other required district/BOCES databases:

✓ Creates exclusive forms to meet any need & requirements

✓ Converts any existing paper form into an online, web-based form

✓ Maintains course, section, homeroom, & specials relationships

✓ Displays any student demographics, program, & other data

✓ Auto-populates from other data systems to make informed decisions

✓ Secures login with LDAP, SAML, & Google authenticator

✓ Offers customizable approval paths & notification

✓ Uses web-based SSL security & fully encrypted

✓ Exports data on-demand to any system

✓ Links directly to SafeSchoolsNY™, DataMate™, StaffTrac™, Curriculum Developer™, & Academic Intervention Management System (AIMS™)

✓ Keeps all information housed & available on-demand for 26 years
