

Report (+)
Student Report Management

Set Up Once. Automate Every Reporting Cycle.

Spend Less Time Managing Documents

Generate, translate, deliver, and archive school documents through a single workflow.

PowerSchool
OFFICIAL PARTNER

REPORT CARDS + TRANSCRIPTS + PROGRESS REPORTS + PARENT LETTERS + STUDENT NOTIFICATIONS + CUSTOM DOCUMENTS

Why Districts Choose Report (+)

Set up your workflow once. Then spend less time managing documents throughout the school year.

Direct PowerSchool® SMS Integration

No exports. No uploads. No extra steps.

Report (+) connects directly to your PowerSchool student management system (SMS) through secure API integration. Configure templates, reporting periods, output types, and delivery methods once – then use the same workflow throughout the school year.

Unlike traditional report card solutions that operate inside your student management system (SMS), Report (+) runs as a secure cloud-based platform, reducing maintenance and minimizing disruption from SMS updates.

The screenshot displays the Report (+) user interface. On the left is a dark blue sidebar with navigation links: Collapse, Dashboard, Workflows, Text Manager, My Documents, Datasets, Sort Preferences, Transforms, Translations, Admin Panel, Portfolio (+), Print Services, and Feedback. The main area shows a 'Workflows' section with 3 workflows. Below this is a table listing the workflows:

NAME	DESCRIPTION	STATUS	MODE	CREATED DATE	ACTIONS
Backend Test Workflow 1775761104518	Testing extended payload struct...	INACTIVE	Single	Apr 9, 2026	[Edit] [Share]
Appleville Transcript by Counselor	Transcripts grouped by counselo...	ACTIVE	Single	Dec 18, 2025	[Edit] [Share]
Appleville Transcript	Automatic transcript generation ...	ACTIVE	Automatic	Dec 18, 2025	[Edit] [Share]

Below the table is a 'Create New Workflow' modal window. It has tabs for Details, Options, Text Manager, Filters, Output, Transforms, Archive, and Approval. The 'Details' tab is active, showing fields for Workflow Name (e.g., '12th Grade Transcripts - Official'), Description, Execution Mode (AUTOMATIC or MANUAL, with MANUAL selected), and Status (ACTIVE or INACTIVE, with ACTIVE selected). At the bottom are 'Cancel' and 'Create Workflow' buttons.

After setup, every reporting cycle becomes a simple, repeatable process.

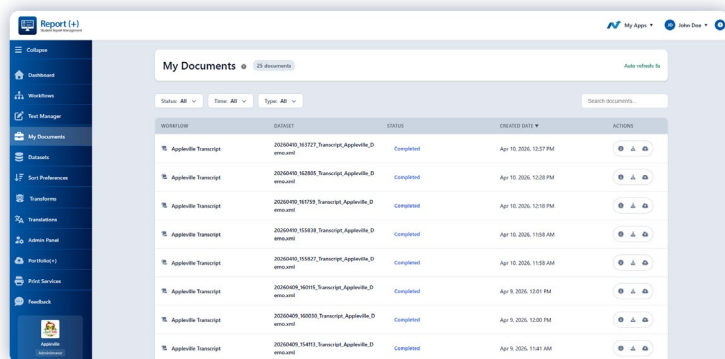

- ▶ Pull student data directly from PowerSchool
- ▶ Configure templates and delivery preferences
- ▶ Generate documents with a single workflow
- ▶ Deliver through your preferred channels
- ▶ Archive records for future access

Simplify every reporting cycle.

One Workflow. Multiple Outcomes.

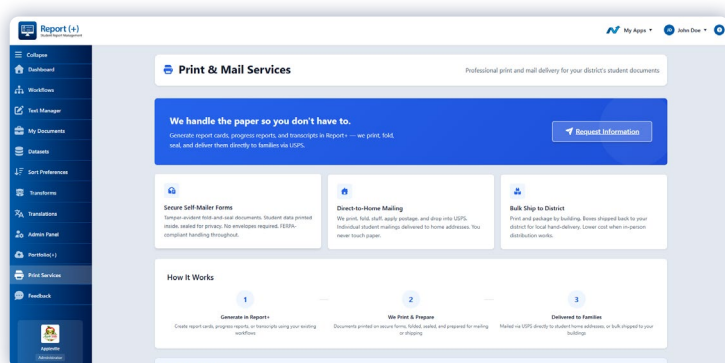

Report (+) streamlines the entire document process—from generation to family delivery.

Generate.

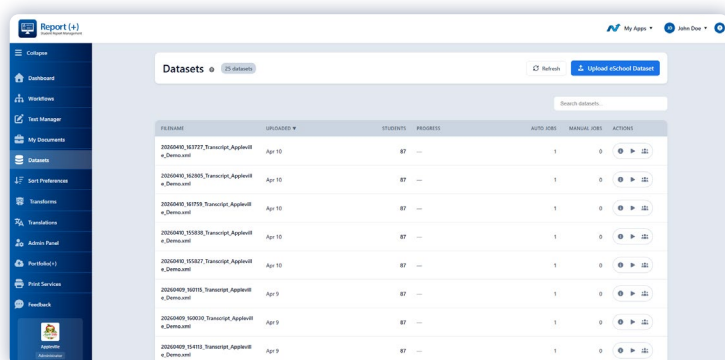

Create report cards, transcripts, progress reports, parent letters, student notifications, and custom documents.

Deliver.

Generate Portfolio (+)-ready documents and print-ready self-mailers simultaneously—all from a single workflow.

Archive.

Maintain secure access to records through cloud storage and eCabinet local archiving options.

All from a single workflow.

Advanced Features Built for Districts.

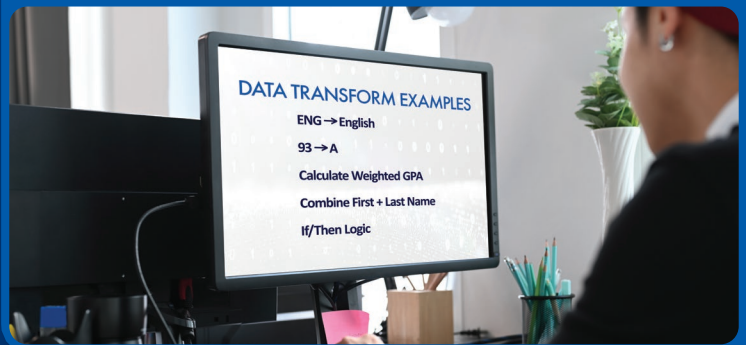

AI-Powered Translation

Automatically translate documents and teacher comments so families receive information in a language they understand.

AI-Assisted Data Transforms

Expand abbreviations, calculate weighted GPAs, convert grades, combine fields, and apply conditional logic using plain-language prompts.

Portfolio(+)

Provide families with secure digital access to important student documents while maintaining convenient access to historical records.

Security & Compliance

- ▶ FERPA
- ▶ NY Education Law 2-d
- ▶ SOC 2
- ▶ Encryption

Educational Vistas has more than 30 years of experience helping school districts work more efficiently through innovative technology solutions.

What if one solution could empower your entire district?

Districts are juggling more systems than ever – each with its own login, data, and limitations. NeuVistas brings it all together – one unified platform to support educators, streamline operations, and improve outcomes across your district.

Start with Report (+).
Expand as your needs grow.
